Additional Items to be Recycled:

- Antifreeze
- Appliances
- Electronics
- Lead Acid Batteries
- Scrap Metal
- Tires
- Used Oil
- Oil Filters
- Yard Waste

Take to Drop-Site ⚠️

These items are banned from landfills and may be recycled at Winnebago County Solid Waste. Charges may apply.

Waste Reduction Tips:

- Avoid disposable, single-use products
- Reuse paper & plastic bags
- Buy in bulk
- Avoid over-packaged products
- Borrow or rent items
- Buy or sell used clothing
- Donate clothing & household items
- If it's broken, first try to fix it

Consider using less. Waste reduction is key to a successful waste management system. Waste that is never created doesn't take up space in a landfill or have a cost to recycle.

Help Recycled Materials Complete the Loop

Look for products and packaging made from recycled materials! The higher the % of post consumer content, the better.

Printed on 30% PCW recycled paper.

Missed pickup? Questions about your residential service?

NEVER PUT MEDICAL SHARPS IN YOUR TRASH OR RECYCLING CART!

Guidelines for Sharps Users:
- Place used or discarded sharps in an acceptable sharps container.
- Take used sharps to a designated collection facility for proper disposal.
- DO NOT place used sharps in coffee cans, plastic milk jugs, plastic bags, aluminum cans or soda bottles. These containers mistakenly end up in recycling collection trucks and burst open.

To find a sharps disposal location search *sharps collection station* at www.dnr.wi.gov.
